How Apes and Monkeys Differ.
What is the difference between apes, baboons and monkeys? Apes are such as are destitute of tails; baboons have muscular bodies, elongated muzzles, and their tails are usually short; monkeys are those whose tails are in general long, some of them, the sapsagos, having prehensile tails, which can at pleasure be twisted around any object, and thereby, in many instances, answers the purpose of an additional hand.

Pleasure in Simple Life.
"Whatever life is simple and sane true pleasure accompanies it as fragrance does uncultivated flowers."

Fear of Diseases in False Hair.
Cleveland's health officer is said to claim that the false hair worn by women is more insanitary and dangerous than most things which the modern woman deprecates as insanitary. In some states they are gathering data to show the number of contagious diseases which can be traced directly to false hair.—National Food Magazine.

English "Hunting Parson."
The Rev. Lawrence Capel Cure, rector of Abbess Roding, whose death is announced, was known throughout West Essex as the "hunting parson." "Henry," said his mother-in-law severely, "I'm surprised to hear you laughing like that when you've just buried your dear wife." Smith with a guffaw replied: "Oh, I can't help laughing when I remember all the jolly times we used to have together."

A Wonderful Healing Influence in Kidney Troubles

A year and a half ago I was taken with a severe attack of kidney trouble that pained me to such an extent that morphine had to be given me. Was attended by a doctor who pronounced it as stone in the bladder and prescribed Lithia Water. I took Lithia water and tablets for some time and received no relief from them. I stopped taking medicines for some time and having some of Dr. Kilmer's Swamp-Root in the house, I decided to try it and I'm much relieved; while taking the second bottle, commenced to pass gravel, in all at least a half a dozen or more and have not suffered the slightest since and in all have taken one bottle and a half and feel very grateful to Swamp-Root.

Yours very truly,
H. W. SPINKS,
Camp Hill, Ala.

Personally appeared before me this 16th of August, 1909, H. W. Spinks, who subscribed the above statement and made oath that same is true in substance and in fact.
A. B. LEE,
Notary Public.

Uncle Pennywise Says;
There's a consumer born every minute, whatever the sucker rate may be.

J. W. Copeland, of Dayton, Ohio, purchased a bottle of Chamberlain's Cough Remedy for his boy who had a cold, and before the bottle was all used the boy's cold was gone. Is that not better than to pay a five-dollar doctor's bill? For sale by All Dealers.

Horses are used to mix the clay by treading it in many Argentine brick-yards instead of employing more expensive machinery.

Chronic rheumatism contracts the muscles, distorts the joints and undermines the strength. A powerful penetrating and relieving remedy will be found in BALLARD'S SNOW LINIMENT. Costly Camel's Hair.
The most costly of all the white animal hairs imported is that of the camel. The camel is commonly of a dirty brown color, but parts of its body may be white, as may be streaks in its mane, called veins. The camel's hair is of superior strength, and its fine white hair of sufficient length is used as a substitute for natural white human hair. White hair of the camel is worth \$25 an ounce.

Left Auntie Pondering.
Ernest is constantly asking his indulgent aunt for pennies, which are never refused. She recently said to him: "Now, Ernest, you may ask a penny for a penny whenever you want one, but you won't ask other people for one, will you?" "Oh, no," he answered with an air of letting his relatives off easy. "I will ask other people for a nickel."
